## ABOUT ME

Hi, I'm **Lasha**, and I'm a **front-end developer (Angular)** I've worked on many **projects** of **varying complexity**. I have a good ability to **overcome** difficulties, which is reflected in the fact that **I can make** any type of website/application. I am **motivated** to work in this field but I **have no work experience**, but I will be glad if this will change.
