Hi, I am Lasha And I'm a front-end developer with good Knowledge of Angular, HTML, CSS, SCSS, JavaScript, TypeScript, and jQuery.js, I have a good understanding of code architecture and in building of reusable components, which allows me to develop efficient and scalable Web applications.

Summary:

- Creating reusable components
- RESTful API integration
- Integrating 3D Models Into the Website
- Creating and integrating user-friendly UI Tutorials For Web Applications,
- To Move the user's focus across the page.

● I have a proven track record of successfully collaborating with back-end teams and integrating RESTful APIs to develop high-performance web applications.

● With my skills and experience, I can help build visually appealing and user-friendly websites and applications that meet the needs of clients and users.

Skills:

HTML
CSS
SCSS
Angular
Bootstrap
JavaScript
TypeScript
jQuery
Three.js
Driver.js
C#

Experience

- **Busbook** demo.busbook.ge 2023 to Present
Freelancer Georgia
- I am an Angular developer working as a freelancer for BusBook, a startup that provides online bus and micro bus ticket purchasing services. My role involves developing and maintaining the website's front-end using Angular, ensuring a user-friendly and responsive interface. I also work closely with the designers to implement their designs and collaborate with the backend team to integrate the front-end with the back-end functionalities. Through effective communication, I ensure that the project requirements are met efficiently and delivered on time.

- **It Step Academy** Dec 2022 to Dec 2022
Hackathon Georgia
- I was the team lead for the winning team at the front-end development hackathon. Our team showcased exceptional skills and creativity in designing and implementing a front-end solution that met the hackathon's objectives. We stood out for our user-friendly interface, efficient performance, and seamless integration of various technologies. Leveraging our knowledge of HTML, CSS, JavaScript, and other front-end tools, we built an innovative solution that surpassed the competition. I am proud of my team's hard work, dedication, and technical expertise, which resulted in a well-deserved win.

Education

- **IT Academy STEP Georgia** Feb 2019

Front End Development

Certificates

IT Specialist - Software Development

Certiport Apr 2023

 www.credly.com/badges/56440422-ddc5-4be0-b7e0-ab02c102dba8/linked_in?t=rsunbk

Earners of this badge demonstrate core software development skills, including object-oriented programming, web applications, and databases. Candidates are expected to have some experience with C# and ANSI SQL.

Projects

BusBook

 demo.busbook.ge

Busbook is a user-friendly online platform that enables travelers to buy bus tickets and easily navigate across cities. With just a few clicks, users can access a wide range of bus routes, schedules, and pricing options from their phone, making travel planning hassle-free and efficient. The platform is designed to provide a seamless and secure experience, ensuring that customers can purchase their tickets with confidence and enjoy a stress-free journey.

Certiport-JS

 github.com/Lashvardi/Certiport-JS

I made a JavaScript documentation project based on the Certiport exam questions. It provides explanations and examples of important JavaScript concepts to help learners prepare for the exam or improve their JavaScript programming skills.

JavaScript, HTML

Angular Country App

 angular-country-app.vercel.app  github.com/Lashvardi/Angular-Country-App

Angular Country App is a web application built using Angular and the Rest Countries API. With this app, users can browse and explore different countries by clicking and choosing from a list. The app displays images and detailed information about each country, sourced from the Rest Countries API. Additionally, the app makes use of an API for images, which further enhances the user experience by providing visual context for each country. Overall, Angular Country App is a simple yet powerful tool for learning about different countries and their unique features.
